

'MV Sindhu' built under 'Make in India' initiative by Cochin Shipyard Ltd. arrives in Port Blair

Ship will be formally inducted into the Fleet soon; vessel equipped with all modern amenities for passengers

Port Blair, May 15
 MV Sindhu, a 500-pax-cum-150 MT cargo vessel constructed by Cochin Shipping Limited, Kochi for A&N Islands arrived here yesterday. The vessel is presently at anchorage until mandatory quarantine is over.

The ship will be formally inducted into the Fleet soon after thorough sanitisation and medical clearance by Directorate of Health Services.

Arrival of this about the state of the art technical prowess vessel, the first of India's ship-building industry. This vessel of Shipping and American Bureau of Shipping, is a proud moment for the Islands and built to the highest standards of the Indian Register of Shipping and American Bureau of Shipping, which can cruise at 16 knots is meeting the Indian Merchant Shipping rules and is customized for

COVID vaccination drive for 45+ 1,17,241 doses of vaccine administered so far in Isles

Port Blair, May 15
 The vaccination drive is continuing in A&N Islands in an effective manner and health teams designated in various vaccination centres spread across the Islands are vaccinating all the beneficiaries above 45, who visit the centres spread over the A&N Islands on a daily basis. The vaccination sessions are continuing in more than 88 designated

Vaccination drive at CHC Nancowry

vaccination centres set up in different parts of the Islands towards the fight against Corona virus. 655 doses of

COVISHIELD vaccines were administered to the eligible beneficiaries by the health teams (Contd. on last page)

No one shall be denied vaccine, medicine, hospitalization or treatment for want of Aadhaar: UIDAI

New Delhi, May 15
 Unique Identification Authority of India, UIDAI has said that no one shall be denied vaccine, medicine,

hospitalization or treatment for want of Aadhaar. In a statement, UIDAI said, certain news items that have appeared in media claiming that vaccination and a few other essential services like hospitalization, were being denied to the residents for want of Aadhaar. (Contd. on last page)

Media briefed on COVID-19 Number of positive cases can be brought down only with active co-operation of general public: Secretary IP&T

Port Blair, May 15
 The Secretary, IP&T, Shri Sunil Kumar Singh while addressing a COVID-19 media briefing held in the conference hall of IP&T today, informed that 1 flight with 98 passengers arrived today and during the Rapid Antigen Test (RAT) conducted on these passengers, none of them were found positive. He further informed that 54 persons bound for Middle & North Andaman were tested at Ferrargunj, of

which 2 persons were found positive. With the active co-operation of the general public we can bring down the number of active cases in our Islands, the Secretary said. He once again urged the people to follow all COVID appropriate behavior, COVID protocols and help Administration in its fight against corona virus. The Secretary informed that a team of Officers has been constituted to inspect

the G.B Pant hospital on regular intervals to see that whatever arrangements have been made by the A&N Administration is implemented properly. About vaccination drive, the Secretary informed that it is continuing smoothly and once again requested the eligible persons above 45 age to come forward to get vaccinated at the earliest and help the Administration to restrict the spread of corona virus. (Contd. on last page)

DC (SA) and team visit some villages under Ferrargunj Tehsil

Port Blair, May 15
 The second wave of COVID-19 is proving to be more contagious and fatal and to contain the movement of people, complete lockdown has been imposed with effect from 15.05.2021 in the areas of Hopetown, Shorepoint, Bamboflat, Stewartgunj, Govindapuram, Nayapuram, Wimberlygunj, Kanyapuram, Mannarghat, Malappuram, Wright Myo and Shoal Bay under Ferrargunj Tehsil. Shri Suneel Anchipaka, Deputy Commissioner (SA) along with SDM (SA) and AC(UT) visited some of the above

said villages to take first hand stock of the situation at ground level and arrangements that are being put in place to enforce the complete lockdown. During the visit, officials from various line Departments providing essential services, also accompanied the team. The DC (SA) issued directions to the officials to ensure that complete lockdown is to be maintained and no movement of person should be allowed except for emergency cases. He also directed them to ensure that basic amenities are not deprived to the people and necessary (Contd. on last page)

Ayurvedic Immunity Promoting Measures

- Take Chyavanprash 10gm (1tsf) in the morning. Diabetics should take sugar free Chyavanprash.
- Drink herbal tea / decoction (Kadha) made from Tulsi (Basil), Dalchini (Cinnamon), Kalimirch (Black pepper), Shunthi (Dry Ginger) and Munakka (Raisin) - once or twice a day. Add jaggery (natural sugar) and / or fresh lemon juice to your taste, if needed.
- Golden Milk- Half tea spoon Haldi (turmeric) powder in 150 ml hot milk - once or twice a day.

First batch of drug, 2-DG developed by DRDO for COVID-19 treatment expected to be launched next week

New Delhi, May 15

The first batch of drug 2-Deoxy-D-Glucose is expected to be launched next week for the COVID patients. The drug has been developed by the Defence Research and Development Organisation, DRDO which recently got the approval for emergency use by the Drugs Controller General of India, DCGI.

Informed sources of DRDO have said that larger quantities of 2DG drug will be produced from the beginning of the next month by Dr. Reddy's lab. As the drug has got the emergency use permission by the DCGI, the drug will only be provided to the COVID patients by the hospitals.

The drug 2-Deoxy-D-Glucose comes in powder form in sachet, which needs to be taken orally by dissolving it in water. It

accumulates in the virus infected cells and prevents virus growth by stopping viral synthesis and energy production. Its selective accumulation in virally infected cells makes this drug unique.

The drug has been developed by one of the DRDO lab, Institute of Nuclear Medicine and Allied Sciences, INMAS in collaboration with Dr. Reddy's Laboratories. Results of clinical trials have

shown that this molecule helps in faster recovery of hospitalised patients and reduces supplemental oxygen dependence. DCGI granted permission for emergency use of this drug as adjunct therapy in moderate to severe COVID patients. Being a generic molecule and analogue of glucose, it can be easily produced and made available in the country.

Country witnessing continuous decline in number of active cases of Covid-19: Health Ministry

New Delhi, May 15

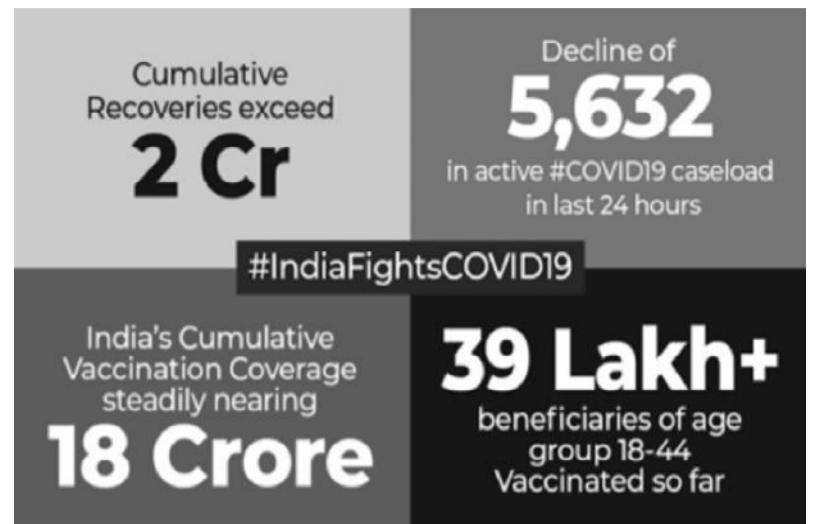

Union Health Ministry has said that the country is witnessing a continuous decline in number of active cases of Covid -19 and increase in recovery rate from the last 12 days.

Addressing media in New Delhi, Joint secretary in the Health Ministry, Shri Lav Aggarwal said that the active cases have now come down to 15.1 percent from 17.1 per cent since 3rd of this month.

The recovery rate also improved further 81.7 per cent to 83.8 per cent. He said, in the last 4 to 5 days, the recovered cases have surpassed the active cases being reported across the country.

He stressed that intensive efforts should continue in States with higher number of cases as 11 States are with more than one lakh active cases and 8 are with 50 thousand to one lakh such cases.

He also informed that there are 24 States including West Bengal, Haryana, Kerala, Andhra

Pradesh and Odisha where the positivity rate is more than 15 per cent and 10 States are those where the rate is between 5 to 15 per cent.

On the status of Vaccination, Shri Agarwal said that India's Cumulative Vaccination Coverage exceeds 18.04 crore.

During the briefing, Director AIIMS, New Delhi Dr Randeep Guleria advised the people about the judicious use of steroids in case of Covid infection as it's high dose can cause mucormycosis or fungal infection in patients who

are diabetic. He said, steroids should not be used in mild infection.

Dr Guleria said that Covid management should reach out to all part of the country including rural areas.

NITI Aayog Member, Health, Dr V K Paul said that the overall situation pandemic is stabilising and we will work towards ensuring further stabilising it.

He also informed that the case fatality rate is stable which is a great achievement. (Source: india.gov.in)

Over 18 crore four lakh COVID vaccine doses administered across the country so far

New Delhi, May 15

Over 18 crore four lakh COVID vaccine doses have been administered to the beneficiaries across the country so far. The Health and Family Welfare Ministry said that over 11 lakh vaccine doses were administered to the beneficiaries within 24 hours.

As the Third Phase of COVID vaccination drive is gaining momentum in the country, people are coming forward for inoculation. The Health Ministry said, over 42 lakh 58 thousand beneficiaries belonging to the age group of 18 to 44 years have received the first dose of vaccine so far. More than three lakh 28

thousand beneficiaries of this age group received COVID vaccine jabs in the last 24 hours. The Health Ministry said, more than 13 crore 74 lakh doses have been administered to the beneficiaries

aged above 45 years. Over three crore 87 lakh COVID vaccine doses have been administered to the healthcare and frontline workers so far. (Source: india.gov.in)

Recovery rate of COVID-19 patients improves to 83.83 per cent

New Delhi, May 15

As the country is registering over three lakh recoveries daily from the past many days, the recovery rate has further improved to 83.83 per cent. The Health Ministry said, over three lakh 53 thousand patients have recovered from this infectious disease within 24 hours. So far, over two crore four lakh patients have already recovered from this disease.

Meanwhile, Indian Council of

Medical Research has informed that over 16 lakh 93 thousand COVID tests were conducted in

the previous day. So far, over 31 crore 30 lakh tests have been conducted in the country.

Relaxations provided under Gas Cylinders Rules, 2016 To fast track approvals for imported cylinders and pressure vessels for storage and transportation of medical oxygen

New Delhi, May 15

Government of India has reviewed the existing procedure for approval of global manufacturers for importing oxygen cylinders by Petroleum and Explosive Safety Organization (PESO). In view of the COVID pandemic, PESO shall not carry out physical inspection of global manufacturers' production facilities before grant of such approval. Now, such approvals shall be granted online without any delay on submission of manufacturer's particulars; ISO certificate of manufacturer; List of Cylinders their specifications, drawings & batch number; Hydro test certificate and Third-Party inspection Certificate. Every foreign manufacturer/importer

who wants to import oxygen cylinders is required to apply for import permission through PESO online system.

In view of emergent situation, procedures are relaxed and the following process is to be followed wherever due to unavoidable circumstances or urgencies, consignment of oxygen cylinders, ISO containers or PSA plants or its related equipment have already arrived in India, without taking import permission from PESO. The filling permission for these cylinders will be issued based on the following relaxation in the rules. Same procedure will apply for import of further such equipment in case the online approvals have not been taken. As such, Certification of

PESO will not be mandatory pre-shipment. However, the certification of PESO will be required before use of the oxygen cylinders which entails weight and hydro testing. The Indian Missions should however ensure that the oxygen cylinders should comply with India or International standards before shipment. In case of filled cylinders, the agency exporting to India shall certify that the oxygen filled in the cylinder is of such purity and concentration that is fit for medical use. The certification shall be attested by the Indian Mission in the exporting country. Further, soon upon receipt in India, such filled cylinders shall be inspected on sample basis by an empanelled agency of PESO and certified as fit for medical use. (Source: PIB)

COVID-19: Maintain safe distance from anyone who is coughing or sneezing.
