District Magistrate of South Andaman issues Order to mitigate water crisis in South Andaman

Port Blair, May 16 Due to delay in the onset of monsoon, the water level at Dhanikari Dam and other water sources situated at the South Andaman District has gone down considerably and is severely affecting the water supply in the area. Many complaints are being received from general public and public representatives regarding irregular and non-supply of water in residential areas leading to a threatening disaster situation. It is perceived that an

emerging distressful situation will arise, if immediate response and action is not taken in view of the prevailing emergent water crisis. After assessing the situation, for the purpose of assisting, protecting or providing relief to the community & general public in response to any threatening disaster situation and for effective control and management of water crisis in the entire South Andaman District, necessary measures are required to be taken on emergent basis to mitigate the crisis and to control the worsening situation. In order to augment the crisis and to avoid any disturbance to law and order in the South Andaman District, the District Magistrate, South Andaman, Ms Veditha Reddy, IAS, in exercise of the powers vested u/s 34 of Disaster Management Act, 2005, has directed the Andaman Public Works Department (APWD) and Port Blair Municipal Council (PBMC) to assess all water sources in the District including bore-wells, ponds, ring wells and other sources; assess the requirement of water for the use of public in limits of South Andaman District and to utilize all water sources including bore-wells, ring wells, ponds and others available in the District and provide supply of clean and safe water to all residents of the District in an equitable manner. In view of the emergent circumstances, the order is being issued ex-parte and is

Union Minister of Communications launches 'Sanchar Saathi' Portal

Various frauds through misuse of mobile phones can be prevented by using this portal: Minister

Urges users to visit the portal and avail services

New Delhi, May 16 (PIB)

Safety and security of the users is an integral part of Prime Minister, Shri Narendra Modi's vision of Digital India. Towards fulfilling this vision, Shri Ashwini Vaishnav, Minister of Communications, Railways and Electronics & IT, launched the Sanchar Saathi portal today. While speaking at the launch, Shri Ashwini Vaishnav said that the three reforms are being introduced today towards furthering PM's vision:

1. CEIR (Central Equipment Identity Register) - for blocking connections-to-know mobile connections registered in your name.
2. ASTR (Artificial Intelligence and Facial Recognition powered Solution for Telecom SIM Subscriber Verification) - to identify fraudulent subscribers.

The Minister said that various frauds such as identity theft, forged KYC, banking frauds can take place by misusing mobile phones. This portal has been developed to prevent such frauds. He said, user safety is also an important part of the draft Telecom bill.

By using Sanchar Saathi Portal, more than 40 Lakh fraudulent connections have been identified and more than 36 Lakh such connections have been disconnected so far. Shri Ashwini Vaishnav urged the users to visit the portal and avail the services. Link of the portal is (<https://sancharsaathi.gov.in>).

With 117 crore subscribers, India has emerged as the second largest telecom ecosystem in the world. In addition to communication, mobile phones are being used for banking, entertainment, e-learning, healthcare, availing Government services, etc.

It is therefore crucial that the users are protected from various frauds such as identity theft, forged KYC, theft of mobile devices, banking frauds, etc. To protect users, Deptt. of Telecom has developed a

citizen centric portal named Sanchar Saathi.

- > It allows citizens to:
- > Check the connections registered on their names
- > Report fraudulent or unrequired connections
- > Block the mobile phones which are stolen/lost.

Check IMEI genuineness before buying a mobile phone.

The entire system has been designed in-house by Deptt. of Telecom. It has following modules.

- > **Centralized Equipment Identity Register (CEIR):**
- > In case any mobile device is stolen or lost, a user can submit the IMEI numbers on the portal.
- > Information submitted by user along with a copy of police complaint is then verified.

The system is integrated with the Telecom Service Providers and Law Enforcement Agencies.

- > Once the information is verified, the system blocks the stolen mobile phones from being used in Indian networks.
- > In case anyone tries to use the stolen device, the system allows Law Enforcement Agencies to trace the device.

When the stolen device is recovered, the user can unlock the device on the portal.

The system prevents use of stolen/lost mobiles.

It also prevents mobile devices with inaccurate or forged IMEIs being used in Indian networks.

Know Your Mobile

- > It facilitates the citizens to check the genuineness of IMEI of their mobile device.
- > Telecom Analytics for Fraud Management and Consumer Protection (TAFMCP)
- > It facilitates a user to check the number of mobile connections taken in her/him name using paper-based documents.

User enters her mobile number on the portal and authenticates using OTP.

The system shows the total connections taken in her name using paper-based documents (such as paper based Aadhar, passport, etc.)

The system allows users to report fraudulent

connections.

It also allows users to block the connections which are not required.

Once reported by the users, the system triggers re-verification process, and the connections are terminated.

ASTR (Artificial Intelligence and Facial Recognition powered Solution for Telecom SIM Subscriber Verification)

Mobile connections obtained using fake/ forged documents are then used for cyber-frauds.

To curb this menace, Deptt. of Telecom has developed AI powered tool - ASTR to identify SIMs issued using fraudulent/ forged documents.

ASTR used various techniques of facial recognition and data analytics.

In first phase, connections with paper based KYC were analysed.

Success using ASTR

In first phase, analysis of more than 87 crore mobile connections were carried out.

For such a large data processing, Param-Sidhhi Supercomputer was used.

Multiple cases were detected where one photograph was used to obtain hundreds of connections.

A total of 40.87 Lakh suspected mobile connections were detected.

After due verification 36.61 Lakh connections have already been disconnected. Remaining are under process.

40,123 Point of Sales (PoS) involved in selling such mobile connections, have been blacklisted by the service providers and more than 150 FIRs have been lodged across India.

The details of disconnected numbers have been shared with banks, payment wallets and social media platforms for disengaging these numbers with their accounts.

Meanwhile, the launch ceremony was also live screened at the Department of Telecommunications, O/o Deputy Director General, A & N Islands, West Bengal, LSA.

operation. The chosen beneficiaries span a diverse range of segments, including Refrigerated/ Insulated Vehicles, Motorcycles, Three-Wheelers with Ice Boxes, Ice Plants/Cold Storage, Fish Value Addition Units, Brackish Water/Grow-Out Ponds etc.

The selection of these beneficiaries reflects the Committee's commitment to empower and uplift the fishing community in N&M Andaman. By offering essential resources and infrastructure, the PMMSY aims to enhance productivity, increase efficiency, and improve the overall socio-economic conditions of those involved in the fisheries sector.

The Deputy Commissioner also emphasized on the importance of collaborative efforts and applauded the active participation of the fishermen community representatives. He reiterated the District Administration's dedication to facilitating the growth of the fisheries industry and ensuring the welfare of the fishing community.

The District Level Committee, PMMSY, N&M Andaman is committed to achieving the objectives outlined under the Pradhan Mantri Matsya Sampada Yojana. The decisions taken during this meeting indicate a significant step towards realizing the vision of a vibrant and sustainable fisheries sector in N&M Andaman, a press release from Zonal Fisheries Office N&MA said.
