

## Hon'ble Lt Governor's timely initiative in imposing mandatory RAT pays off exceedingly

### So far 54 passengers tested COVID positive upon arrival at Port Blair Airport despite carrying RTPCR Negative Report

Port Blair, April 19 The far sighted vision of the Hon'ble Lt Governor, A&N Islands in initiating mandatory Rapid Antigen Test (RAT) for all incoming flight passengers to A&N Islands has proved to be a boon to the Islands, as more and more positive cases are being detected upon arrival, despite the passengers carrying RTPCR Negative Report. The direction of Lt Governor is paying off great result and is immensely helping in detecting and preventing positive cases from further spreading in the Islands, thereby curbing the chain of transmission. The five-fold strategy of Test, Track, Treat,

COVID Appropriate Behaviour and C O V I D Management is being implemented in letter and spirit to curb the spread of virus effectively in these Islands.

Since the RAT was made mandatory for incoming flight passengers from April 16, so far, it has helped in

detecting a total of 54 COVID positive cases which otherwise would have gone undetected and might have added to the increasing number of cases.

Today, 19 cases were detected from Airport, which shows the double checking imposed by the Administration

has been a stitch in time. The Administration is well equipped to meet any exigency. To cater to the medical requirements of COVID positive patients, elaborate arrangements have been made. In this regard, COVID Care Centres have been

## Chief Secretary devises innovative & new System of Tracking Expenditure of Govt. Departments

### First system of its kind devised in India & being implemented in A & N Islands

Port Blair, April 19 The Chief Secretary, A&N Administration, Shri Jitendra Narain has devised an innovative & new system which will aid in tracking expenditure of the Govt. Departments functioning under A & N Administration. This unique system has been devised for the first time in India and is being implemented in Andaman & Nicobar Islands by Chief Secretary. The system will immensely help in tracking expenditure of the Govt. Departments on various schemes being implemented for the beneficiaries.

The system will enable tracking for BCSS- 'B' refers to Govt. Departments

that spend money on various Beneficiaries; 'C' implies various Contractors who are given contracts by the Department for various works and the method of their contract given and whether they have had a history of involving Govt. in arbitration cases and extracting more money; 'S' refers to the Suppliers to

Govt. monitor the Departments which are purchasing with transparency and those which are not. It will also monitor expenses and stabilize and bring transparency to them while keeping a track of various contractors and suppliers, their quality and quantity and the way they are being selected.

The tracking system is very crucial and will be able to analyze the way the Government Departments follow GFR, Gem, GoI & A&N Administration and

## Centre decides to give COVID-19 vaccination to all above 18 years from May 1

New Delhi, April 19 Everyone above the age of 18 years will now be administered COVID-19 vaccine from 1<sup>st</sup> of May. Centre today announced a liberalised and accelerated phase three strategy of COVID-19 Vaccination. A decision in this regard was taken during a meeting chaired by Prime Minister.

In this phase, the vaccination will continue

as before in Government of India vaccination centres free of cost to the eligible population including Health Care Workers, Front Line Workers and all people above 45 years of age.

During this phase, vaccine manufacturers will supply 50 percent of their monthly released doses to Central Government and they will be free to supply the

remaining 50 percent doses to States as well as in the open market. The manufacturers will transparently make an advance declaration of the price of the Vaccine that will be available to State Governments and in open market. Private Hospitals will have to procure their supplies of COVID-19 vaccine exclusively from the 50

## COVID-19 Vaccination Drive: Administration reaching out to people in remote areas of the Islands

### 86, 838 dozes of vaccination administered so far

Port Blair, April 19 The vaccination sessions are continuing in more than 30 designated vaccination centres set up in different parts of the Islands towards the fight against Corona virus in A&N Islands. Altogether 77 medical teams engaged for the vaccination purpose is administering COVISHIELD vaccine to the eligible persons to cover maximum

persons above 45+ on a daily basis. The total vaccination doses administered to the beneficiaries has now reached 86,838. Today (April 19), the medical teams in different

Vaccination Centres have administered 3795 doses of COVISHIELD vaccine to the eligible persons. Reaching out to the people of remote areas in the Islands, medical team from

Health Department vaccinated about 36 people at three places in Little Nicobar viz. Macachua, Afra Bay & Pilolo. Similarly, the vaccination drive was conducted at remote areas in

Diglipur viz. Beach Dera and Coffee Dera wherein 40 persons were vaccinated.

The response from the people of the Islands towards COVID vaccination drive launched by the A&N Administration is overwhelming as many eligible citizens have got themselves vaccinated willingly.

For the benefit of the eligible citizens

**DRDO develops SpO2 based Supplemental Oxygen Delivery System**

New Delhi, April 19 (PIB)

Defence Research and Development Organization (DRDO) has developed SpO2 (Blood Oxygen Saturation) supplemental Oxygen Delivery System for soldiers posted at extreme high-altitude areas. Developed by Defence Bio-

Engineering & Electro Medical Laboratory (DEBEL), Bengaluru of DRDO, the system delivers supplemental oxygen based on the SpO2 levels and prevents the person from sinking in to a state of Hypoxia, which is fatal in most cases, if sets in. This automatic system can also prove to be a boon during the current

COVID-19 situation. Hypoxia is a state in which the amount of oxygen reaching the tissues is inadequate to fulfill all the energy requirements of the body. This is exactly the situation that gets replicated in a COVID patient due to the virus infection and has been a leading factor in the current crisis.
