Lets Fulfill the Dream of Gandhiji...

....It is criminal to spend the income from the sale of in-toxicants on the education of the nation's children or other public services. The government must overcome the temptation of using such revenue for nation-building purposes. Experience has shown that the moral and physical gain of the abstainer more than makes up for the loss of this tainted revenue. If we eradicate the evil, we will easily find other ways and means of increasing the nation's income.
