## Better management of energy through smart metering

### Consumers can access data through 'AED Smart Metering' App

#### 28,000 Smart Meters installed in various areas of city & suburbs

Port Blair, Jan. 20

In a bid to create a smart energy system in the Islands, the Electricity Department of A&N Administration has taken the initiative to install smart meters in all the households. This will enable power consumers to monitor household energy usage and better management of energy. The Smart Meter Programme of A & N Administration is being implemented through Energy Efficiency Services Ltd (EESL) under Smart Meter National Programme which was launched on 17th January, 2020 in Isles. Since its launch, the Department has been able to cover quite a number of households in the city and its suburbs.

The key advantages of installation of smart meters is that it will eliminate manual monthly meter readings besides real time monitoring of electric system and encourage efficient usage of power resources by consumers. It will also provide responsive data for balancing electric loads. Basically, it shall provide a reliable, efficient and

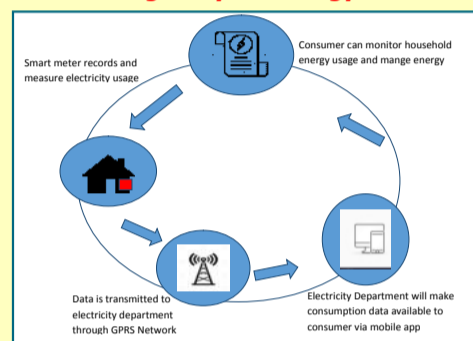

secure power supply to the consumers. This technology will help the consumer to take charge of their energy bill.

It is to mention that despite the challenges owing to the pandemic, the Department as on date has installed 28,000 Smart Meters in various areas viz. Aberdeen Bazaar, Phoenix Bay, Haddo, Prem Nagar, Shadipur, Chakkargaon, Prothrapur, Chouldari, Manglutan, Sippighat, Bambooflat, Ferragunj. Further, the Smart Metering project will also be extended to North & Middle Andaman and other adjoining areas in the days to come.

The smart meter project will certainly bring around a paradigm shift from manual meter reading system to automated meter through

Advanced Metering Infrastructure. The major functions of smart meter will be capturing of data such as voltage, current, load in KWh, KVA, KVar, power factor, frequency, and onward transfer to the data center for metering and billing. The entire data will be available to the consumer through a mobile based application 'AED Smart Metering', available in Google Play store. AED stands for Andaman Electricity Department.

## PBMC conducts meeting for SHGs formed under DAY-NULM Participants enlightened on various platforms of livelihood enhancement opportunities

Port Blair, Jan. 20

With the aim to mobilize the urban poor for effective and sustainable livelihood under the SMID component of DAY-NULM for poverty reduction, a meeting for the Self Help Groups formed by Port Blair Municipal Council (PBMC) under DAY-NULM was convened at Dr. BR Ambedkar auditorium on Jan.18. The purpose of meeting was to inform the SHGs about the various platforms through which the PBMC intends to offer livelihood enhancement opportunities to the urban poor. The meeting was attended by a total of 85 members from different SHGs within the municipal area. The participants showed good response with huge number of them volunteering for the various fora offered for livelihood support and sustainability.

The core belief of Deendayal Antyodaya Yojana-National Urban

Livelihoods Mission (DAY-NULM) is that the poor have entrepreneurial skill and the innate desire to come out of poverty. With the challenge to unleash their capabilities in order to

generate meaningful and sustainable livelihoods, they need to be provided sufficient capacity so that they can manage the external environment, access finance, expand their skills, enterprises and assets. This requires continuous and carefully designed hand holding support. PBMC stands committed to the cause of the poor and lend full support to make them
