Ravindra Jadeja storms into top ten of ICC test bowler rankings

New Delhi, Feb. 23
India all-rounder Ravindra Jadeja stormed into the top ten of the ICC test bowler rankings after his brilliant performance in the first two tests against Australia. The left-arm bowler is the leading wicket-taker in the Border-Gavaskar series with 17 wickets from the two Tests and has galloped to the ninth spot in the bowler rankings. Jadeja is the third Indian in the top 10

with Ravichandran Ashwin and Jasprit Bumrah being the other two. Right-arm off-spinner Ashwin climbed to the second spot with 40-year-old James Anderson occupying the pole position. India all-rounder Axar Patel - who is the second leading run-scorer in the series against Australia has moved two places to fifth overall in the latest Test all-rounder rankings.

jobs and ensuring global good. Highlighting the initiatives taken by the Government to ensure green growth and energy transition, Shri Modi said, increasing the production of renewable energy, decreasing the use of fossil fuels and moving towards a gas based economy are the three pillars of the country's priorities and strategies. He said, several important announcements including PM Kusum, rooftop solar scheme, incentives for solar panel manufacturing and battery storage were made in the Budgets since 2014.

Talking about initiatives taken in this year's Budget, the Prime Minister said, several key announcements were made in the Budget regarding green growth which are the foundation stones for the bright future of the country's future generations. He said, schemes and policy initiatives like PM Pranam, Gobardhan, and Vehicle Scrapping Policy will play a key role in shaping the future of the country.

The Prime Minister stressed that the more commanding position India will hold in renewable energy resources, the more change it can bring in the world. He said, India is the leading country in augmenting its renewable energy capacity in the major economies of the world since 2014. He said, whatever the target country has set, it achieved well before the deadlines. He said, the country achieved a target of 40 percent of installed electricity capacity from non-fossil fuel nine years before the target. He urged the investors to come forward to invest in sectors like biofuel, agri-waste, biogas, green hydrogen, vehicle scrapping, battery storage and municipal solid waste, terming the opportunities in the renewable energy sector as gold mines. ICAR develops new wheat variety which can overcome challenges arising out due to changes in weather patterns and rising heat levels

New Delhi, Feb. 23

Indian Council of Agricultural Research has developed a new wheat variety which can overcome the challenges arising out due to changes in weather patterns and rising heat levels.

This new wheat variety called HD-3385 is amenable to early sowing, escaping the impact of heat spikes and can be harvested before March end. ICAR Principal Scientist, Shri Rajbir Yadav

explained the merits of this new variety and how the farmers can get good production by sowing this wheat variety. Recently, in the wake of rising temperatures, the Centre has announced to set up a committee to monitor the situation arising from the increase in temperatures and its impact on the current wheat crop.
