38 Gram Panchayats and 18 Tribal Villages declared TB Mukta in A&N Islands for the year 2025

Sri Vijaya Puram, Mar. 29 In a significant achievement under the TB Mukta Panchayat initiative of the National Tuberculosis Elimination Programme (NTEP), 38 Gram Panchayats and 18 Tribal Villages were declared as "TB Mukta" for the year 2025 in Andaman & Nicobar Islands.

Out of the total, 14 Gram Panchayats are from South Andaman district, 22 from North & Middle Andaman district, and 2 from

Nicobar district. In addition, 18 Tribal Villages from Nicobar district have also achieved TB Mukta status.

These certifications were awarded on the occasion of World TB Day 2026 by the respective Deputy Commissioners of the districts, recognizing exemplary performance at the grassroots level in TB elimination efforts.

The declaration of TB Mukta status is based on attainment of key

programmatic indicators under the TB Mukta Panchayat framework, which include:

- > High presumptive TB examination rate (≥ 30 per 1,000 population annually)
- > Low TB notification rate (≤ 1 per 1,000 population annually)
- > High treatment success rate (more than 85%)
- > Adequate drug susceptibility testing coverage (at least 60% of notified cases)
- > 100% coverage under

Ni-kshay Poshan Yojana (at least one installment to all eligible TB patients)

> 100% nutritional support coverage for TB patients under Pradhan Mantri TB Mukta Bharat Abhiyaan

The State TB Unit has informed that this achievement reflects strong field-level implementation, early diagnosis, effective treatment adherence, and robust patient support systems. Sustained community

participation and convergence with Panchayati Raj Institutions have been key drivers in achieving TB Mukta status.

It was further emphasized that continued efforts will focus on strengthening active case finding, ensuring universal access to diagnostics and treatment, and expanding TB Mukta certification to more Panchayats and villages across the Islands.

Transport Department issues strong

(Contd. from page 1)

of road safety, violations of which have been found to be major contributors to road accidents and fatalities are as under:

The general public is hereby informed of the following important aspects of road safety for compliance:

Pedestrians and Pedestrian Crossings

Pedestrians constitute the most vulnerable group of road users and therefore require special protection. The public is advised that pedestrians must cross roads only at designated zebra crossings and strictly obey traffic signals at all times. Jaywalking or crossing roads at undesignated locations poses serious danger to life and must be avoided. Motorists are mandatorily required to slow down near pedestrian crossings, stop when necessary, and give the right of way to pedestrians. Parking of vehicles or any form of encroachment on footpaths and pedestrian crossings is strictly prohibited, as it forces pedestrians onto carriageways and significantly increases the risk of accidents. These instructions are enforceable under Section 119 and Section 138 of the Motor Vehicles Act, Rule 11 of the CMVR, and violations attract penalties under Section 177 of the Act. Disregard for pedestrian safety often results in irreversible loss of innocent lives and shall be dealt with sternly.

Mandatory Wearing of Helmets (Two-Wheeler Riders)

As per the provisions of MV Act, wearing of protective helmets by two-wheeler riders is mandatory. Head injuries have been identified as the leading cause of death in two-wheeler accidents, and the use of a standard protective helmet has been proven to substantially reduce the severity of injuries and save lives. It is compulsory for both the rider and the pillion rider to wear BIS-certified protective helmets, which must be properly fastened to ensure effective protection. Where applicable, children riding as pillion riders must also wear helmets. Non-compliance with these provisions is a punishable offence under Section 129 of the Motor Vehicles Act and attracts a penalty of Rs. 1,000/- along with disqualification of the driving licence for a period of three months under Section 194D of the Act. Wearing a helmet should be seen not merely as a legal requirement, but as a moral responsibility towards one's own safety and the well-being of one's family.

Unlawful and Wrongful Lane Driving

Wrong-side driving, unlawful lane changing, and general lane indiscipline have emerged as major causes of fatal head-on collisions and serious road accidents. All motorists are strictly instructed to drive only on the correct side of the road, follow lane markings, directional arrows, and traffic signs, and avoid sudden or unsafe lane changes. Overtaking from the wrong side (especially overtaking by the Two Wheelers from the left side of the vehicle ahead), cutting across traffic, and reckless maneuvering endanger not only the violator but also other innocent road users. Two-wheelers, cars, and heavy vehicles must adhere to designated lanes wherever such arrangements are provided. Such dangerous driving practices are punishable under Section 184 of the Motor Vehicles Act, along with relevant provisions under Sections 119 and 177 of the Act, and shall invite strict enforcement action.

Wrong-lane driving puts not only the violator but also innocent road users at grave risk.

White LED Dazzling Lights, Red/Blue Strobe Lights and Unauthorized Hooters

The use of high-intensity white LED dazzling headlights, red or blue flashing or strobe lights, modified lighting systems, and unauthorized multi-tone or pressure horns has become a serious safety hazard on public roads. Such devices cause glare, confusion, panic, and temporary blindness, particularly during night driving, thereby significantly increasing the likelihood of accidents. The public is hereby informed that only manufacturer-approved headlights, fog lamps, and horns are permitted for use in vehicles. Installation or use of white LED dazzling lights, red or blue strobe lights, and unauthorized hooters in private vehicles is strictly prohibited. Emergency lights and sirens are permitted exclusively for authorized emergency vehicles as per law. These violations attract action under Section 52 and Section 190(2) of the Motor Vehicles Act, Rules 104 and 106 of the CMVR, and penalties under Section 194F of the Act.

The Hon'ble Supreme Court of India has consistently emphasized that road safety is a shared responsibility of the Government, enforcement agencies, and citizens alike. While enforcement agencies will continue to take firm and consistent action against violators, meaningful and lasting improvement in road safety can only be achieved through active public cooperation and voluntary compliance with traffic laws in both letter and spirit.

All road users are therefore earnestly appealed to follow traffic rules without exception, respect fellow road users, avoid risky and aggressive behaviour on roads, and set a positive example for others, particularly children and young drivers. Transport Department, Andaman & Nicobar Administration, calls upon all citizens to join hands in building a culture of responsible road use.

All motor vehicle drivers and riders are advised to follow the motor vehicle laws as these are crucial for personal safety and legal compliance. Enforcement drives will continue and motor vehicle drivers/riders found violating the provisions of Motor Vehicle Act, Rules and Rules of Road Regulations will be penalized as per the law.

'Safe roads save lives. Let us work together to prevent accidents and protect every life on the road', a press release from Transport Department said.
