

PM lauds decline in Tuberculosis incidence as result of India's dedicated efforts

New Delhi, Nov. 3

Prime Minister, Shri Narendra Modi today said that decline in tuberculosis incidence is an outcome of India's dedicated and innovative efforts. Commending the country's progress, Shri Modi said in a social media post that through a collective spirit, the Government will keep working towards a TB-free India. He added that the Government remained steadfast in commitment to creating a TB-free India.

According to the World Health Organization (WHO) India has recorded a decline of 17.7 percent in TB incidence from 2015 to 2023.

This rate is more than double the

global decline of 8.3 per cent. Sharing the information in social media post yesterday, Health Minister, Shri JP Nadda emphasised that this acknowledgment reflects India's transformative approach to TB care and control. He mentioned that the Government has expanded and strengthened the National TB Elimination Programme by taking key initiatives such as the Nikshay Poshan Yojana to provide essential nutritional support to TB patients. Family Planning Prog. to achieve population stabilization DHS implementing Family Planning Services in all District Hospitals, PHCs and UHCs spread across the Islands

Staff Correspondent

Sri Vijaya Puram, Nov. 3

India was the first country in the world to have launched a National Programme for Family Planning in 1952. Over the decades, the programme has undergone transformation in terms of policy and actual programme implementation and currently being repositioned to not only achieve population stabilization goals but also promote reproductive health and reduce maternal, infant & child mortality and morbidity.

The Ministry of Health and Family Welfare is the Government Unit

responsible for formulating and executing family planning in India. An inverted Red Triangle is the symbol for family planning health and contraceptive services in India. In addition to the newly implemented Government campaign, improved healthcare facilities, increased education for women, and higher participation among women in the workforce have helped lower fertility rates in many Indian cities. The objectives of the program are positioned towards achieving the goals stated in several policy documents. While India is improving in

fertility rates, there are still areas of India that maintain much higher fertility rates.

In 2017, the Ministry of Health & Family Welfare launched Mission 'Pariwar Vikas', a Central Family Planning Initiative. The key strategic focus of this initiative is on improving access to contraceptives through delivering assured services, ensuring commodity security and accelerating access to high quality family planning services. Its overall goal is to reduce India's overall fertility rate to 2.1 by the year 2025. Along with that, two contraceptive pills, M P A (Medroxyprogesterone

acetate) under Antara program and Chaya (earlier marketed as Saheli) are being made freely available to all Government Hospitals.

In A&N Islands, Family Planning Programme is being implemented by the Directorate of Health Services in letter & spirit. Apart from the lone Referral Hospital G. B Pant Hospital, Sri Vijaya Puram, Family Planning Services is rendered in all the District Hospitals, PHCs and UHCs spread across the A&N Islands. Family Planning Services intended to determine the number and spacing of one's children through birth

control. The methods available currently in India may be broadly divided into two categories, spacing methods and permanent methods. There is another method (emergency contraceptive pill) to be used in cases of emergency.

Spacing Methods: These are the reversible methods of contraception to be used by couples who wish to have children in future. These include OCP, condom, IUCD, ECP, Antara (injectable and Chhaya).

Permanent Methods: These methods may be adopted by any member of the couple and are generally considered

Historic Chess Simul Event held at Swaraj Dweep

Swaraj Dweep, Nov. 3 In an unprecedented initiative, the District Administration of South Andaman under the leadership of Shri Arjun Sharma, IAS, DC (SA) in collaboration with the Andaman Nicobar Chess Association (ANCA), organized a Chess Simultaneous Exhibition Event at the iconic Radhanagar Beach, one of Asia's most beautiful beaches. This event marked the first time that chess was played on the stunning shores of Swaraj Dweep, creating a perfect fusion of intellectual engagement and Island's natural beauty.

The event attracted an enthusiastic crowd, including school students, local chess players from Swaraj Dweep and curious tourists who were captivated by the

sight of chess being played on the beach. FIDE Instructor, Shri B. Neelaiah led the event, simultaneously competing against multiple young participants, making it an unforgettable experience for players and spectators alike. Tourists also joined in the excitement, adding to the lively atmosphere and witnessing the game in this idyllic setting.

Shri Firoz Alam, SDPO of Swaraj Dweep, who was the chief guest, inaugurated the event with a ceremonial first move. He encouraged the young players to pursue their talents and, above all, urged them to enjoy the game.

This initiative aimed not only to bring the game closer to the community of Swaraj Dweep but also to offer the island's youth a chance to experience competitive chess in an awe-inspiring environment. The event was widely appreciated, with both locals and visitors commending the effort to merge sports and nature in such a memorable way. The event was made possible through the dedicated efforts of the AC Office, Swaraj Dweep, whose support was invaluable in bringing this vision to life, a press release from ANCA said.
