## MESSAGE

I am glad to know that "World Environment Day" is being celebrated on 05<sup>th</sup> June, 2023 in Andaman & Nicobar Islands along with rest of the nation and world, based on the theme focussing on Solutions to plastic pollution under the campaign #BeatPlasticPollution.

Every year, this day is celebrated to raise awareness and encourage actions on specific environmental issues in the interest of protection of our environment. The scourge of plastic pollution is a visible threat that impacts every community around the world. The plastic clogs our landfills, leaches into the ocean and is combusted into toxic smoke, making it one of the gravest threats to the planet earth. Micro plastics find their way into the food we eat, the water we drink and even the air we breathe. Many plastic products contain hazardous additives, which may pose a threat to our health. The active involvement of all sections, from Governments and businesses to civil society is essential to defeat this menace.

Apart from plastic pollution, Union Ministry of Environment, Forest and Climate Change, Government of India envisages to celebrate the World Environment Day, 2023 with a thrust on the Mission LiFE. The concept of LiFE i.e. "Lifestyle for Environment" was introduced by the Hon'ble Prime Minister, at the United Nations Climate Change Conference (26<sup>th</sup> Conference of Parties) in Glasgow. The Hon'ble Prime Minister gave a clarion call to rekindle a global pursuit to adopt sustainable lifestyle and practices. The LiFE highlights Indian traditions, love for nature and draws upon this to nudge individuals and community towards environment friendly life style. During the last one month, more than 4200 events have been held in the Islands under the concept Mission LiFE.

On this occasion, I appeal to the people of our Islands to extend wholehearted support to Mission LiFE by adopting eco-friendly plastic free and sustainable lifestyle. Wishing everyone a Happy World Environment Day.
