Reforms in agricultural sector

President promulgates two Ordinances to help farmers & to boost rural economy

New Delhi, June 6 (PIB)

After the announcement of the landmark decisions by the Government of India for reforms in the agricultural sector for raising the income of the farmers as part of the 'Aatmanirbhar Bharat Abhiyan', the President of India has promulgated two Ordinances with the aim of giving a boost to rural India for farmers engaged in agriculture and allied activities. The ordinances promulgated are 'The Farmers' Produce Trade and Commerce (Promotion & Facilitation) Ordinance 2020' and 'The Farmers (Empowerment and Protection) Agreement on Price Assurance and Farm Services Ordinance 2020'.

The Central

Government has been making comprehensive interventions to impart efficiency and effectiveness to agricultural marketing, with the aim of raising the income of the farmers. By recognizing the bottlenecks preventing the holistic development of marketing of the agricultural produce, the Government drafted and circulated the Model Agriculture Produce and Livestock Marketing (APLM) Act 2017, and also the Model Agriculture Produce and Livestock Contract Farming Act of 2018, for adoption by the states.

When the whole ecosystem of agriculture and its allied activities was tested during the COVID-19 crises, it reconfirmed the necessity for the Central Government to speed up the reform process and to come up with a national legal facilitative ecosystem to improve intra-state and interstate trade of agriculture produce. The Government of India also recognized the need for the

farmer to sell agriculture produce at a place of his choice at a better price by increasing the number of prospective buyers. A facilitative framework was also considered necessary for farming agreements. Thus the two ordinances have been promulgated

The Farmers' Produce Trade and Commerce (Promotion & Facilitation) Ordinance 2020" will provide for the creation of an ecosystem where the farmers and traders enjoy the freedom of choice relating to sale and purchase of farmers' produce which facilitates remunerative prices through competitive alternative trading channels. It will promote efficient, transparent and barrier-free inter-State and intra-State trade and commerce of farmers' produce outside the physical premises of markets

Subsequently, all asymptomatic negative tested passengers will be discharged from isolation to their homes for quarantine, as per the prescribed protocol. The symptomatic and positive tested

passengers will continue to be kept under the government medical facilities as per their clinical symptoms.

It has been decided by the Administration that the cost of COVID test, boarding and lodging in the government isolation facilities on arrival of these stranded passengers will be borne by the Administration. Moreover all asymptomatic passengers who are subsequently
